

## Glassworks: Hummingbird in the Garden by SANDI SMITH

I've practiced art for over 10 years as a way to bring balance to my life. It provides me with the opportunity to create and connect with other artists. I soon found that mosaics allowed for endless possibilities in working with this rich, yet transparent medium.

I have studied in England, Italy and Spain and with many fine mosaic artists in the United States. My mosaic piece "Lines" was purchased by the City of El Paso in 2020 and now resides in the Mayor's office. I continue to produce fine mosaic art by commission.
